MESSAGE FROM THE CHAIR

On behalf of the National Emergency Medicine Political Action Committee (NEMPAC) and our Board of Trustees, I am pleased to share our NEMPAC 2022 Election Cycle Report. Our mission to educate and support federal candidates who will advocate for you and your emergency physician colleagues and patients has never been stronger.

This report reflects on that mission and the important role that NEMPAC plays in ACEP's ability to tell your story to Congress to get the results that will improve your practice environment, and ability to care for patients. NEMPAC continues to be the most effective political voice for all emergency physicians – no matter where we practice or what stage of our careers. We are grateful to the thousands of ACEP members who reached into their pockets to personally support NEMPAC over the past two years to give emergency medicine a strong voice when it was most needed.

NEMPAC had the resources to donate more than \$1.6 million to 204 congressional candidates, many strategic leadership and party committees, and two independent expenditures for physician candidates in the 2022 election cycle, all of which were carefully vetted by the NEMPAC Board of Trustees.

Despite a truly challenging political and legislative environment, NEMPAC helped to get many of ACEP's legislative priorities across the finish line in the last Congress - not least of which was a law to provide mental health resources to physicians, named in honor of the life and legacy of Dr. Lorna Breen, an ACEP member.

As Chair of the NEMPAC Board of Trustees, I can tell you unequivocally that our Board develops and maintains rigorous contribution guidelines based on bipartisanship, what is best for emergency medicine, and compatibility with ACEP's mission as an organization. We take seriously our responsibility to be good stewards of ACEP members' contributions and respect the integrity of their intent to provide emergency medicine with a strong voice in the democratic process.

Our priority in 2023 is to help build a constructive discourse in the political and legislative environment while supporting policies and policymakers who share these same ideals. When we lead the discussion, we can ensure the voice of emergency physicians is heard and that we can continue to focus on putting patients first in everything we do.

I am hopeful for what the future can bring as we enter a new year and begin to work with the 118th Congress. There is nothing we cannot do together!

Dr. Peter Jacoby, MD, FACEP
Chair of the NEMPAC Board of Trustees

NEMPAC's mission is to educate and support federal candidates who will advocate for the highest quality of emergency care and the concerns of emergency physicians and our patients.

ACEP Leadership Support of NEMPAC

During the 2022 election cycle, ACEP leaders stepped up once again to help NEMPAC have the resources needed to elect emergency medicine champions. The entire ACEP Board of Directors and the NEMPAC Board of Trustees donated at the Give a Shift level or more, truly leading by example with their generous support. During the annual NEMPAC Council Challenge at ACEP22 in San Francisco, ACEP Councillors donated more than **\$275,000** towards **NEMPAC's \$1 million annual goal**. Eight-five percent of the Council donated, with 34 percent donating at the Give a Shift level.

HOW DOES NEMPAC MAKE DECISIONS?

At the beginning of each election cycle, the NEMPAC Board of Trustees looks at how to best evaluate and support federal candidates. New criteria were included for the 2022 election cycle after reviewing the feedback of ACEP members and reflections of our PAC Board on the events of January 6, 2021.

Evaluation criteria followed past NEMPAC practices of focusing on a candidate's support of ACEP's key legislative and regulatory initiatives, co-sponsorship of ACEP legislation, committee assignment, leadership position, relationship to state chapter and/or local ACEP members, and difficulty of the re-election race.

Key metrics considered during the 2022 Election Cycle and tracked for every member of Congress:

- Behavior and actions are consistent with the mission, vision, and values of ACEP
- Upholds the principles of our democratic process and orderly governance
- Affirms science and evidence and fact in words and actions
- Supports ACEP's key legislative initiatives by voting for or co-sponsoring bills or signing letters to regulatory agencies
- Serves on a key health care committee or in congressional leadership of either party
- Develops strong relationship with an ACEP state chapter or local ACEP member
- Running in a competitive race.

In addition, the integrity and character of candidates are assessed on an ongoing basis and NEMPAC may consider ceasing contributions to a candidate or committee if credible, specific, and serious allegations about the candidate's behavior arise.

NEMPAC also continued our commitment to inclusiveness and respect for diversity.

A decision to financially support a candidate for office is not an endorsement by NEMPAC or ACEP of every vote the candidate has or will cast in Congress. NEMPAC supports candidates based on their ability to influence emergency medicine-related issues affecting your practice environment and ability to care for patients.

For more detailed information on NEMPAC's guidelines, please visit acep.org/nempac/candidates-supported/

NEMPAC dine-around during LAC with Rep. Brad Wenstrup, DPM (R-OH)

Rep. Raul Ruiz, MD, FACEP (D-CA) at a NEMPAC event during ACEP22

ACEP Past-President Gillian Schmitz met congressional leaders, including House Speaker Kevin McCarthy (R-CA) during a physician specialties PAC event in DC

OPPORTUNITIES TO EDUCATE

When an ACEP member or staff delivers a NEMPAC check or attends a fundraising event, we can educate federal candidates about emergency medicine's priorities.

NEMPAC supported nearly 1,200 virtual and in-person events in the 2022 election cycle with 20% attended by ACEP leaders and NEMPAC VIP Donors.

How We Do It

Training through the Physician Specialty Candidate Forum

Co-hosting events with other physician specialties in DC

Dine-arounds with key legislators during the ACEP Leadership and Advocacy Conference

Prioritizing "Champions" of emergency medicine

Direct financial support to campaigns

ACEP members attend local fundraisers and serve on candidate steering committees

Independent Expenditures

Virtual speaker series with key legislators

"NEMPAC gives us the opportunity to tell our story to legislators so they can understand the impact of policies on our patients and our profession."

- Kenneth Kim, MD

NEMPAC Chair Dr. Jacoby with physician candidate Dr. Kermit Jones (D-CA)

CO ACEP members with Sen. John Hickenlooper (D-CO) during LAC

Sen. Tammy Baldwin (D-WI) at ACEP's Workplace Violence Prevention Press Event

LEGISLATIVE ACCOMPLISHMENTS IN THE 117TH CONGRESS

Enacting the Dr. Lorna Breen Health Care Provider Protection Act

Emergency physicians have been on the front lines of the COVID-19 pandemic since the very beginning, working through the biggest public health crisis in more than a century – often in overwhelmed EDs and without adequate PPE or other resources. Under tremendous stress and difficult conditions, emergency physicians and other frontline providers bore the brunt of the pandemic's effects.

ACEP worked closely with Congress to develop the Dr. Lorna Breen Health Care Provider Protection Act, legislation named in honor of the life and legacy of one of our own emergency physician colleagues. Thanks to your stories and personal advocacy, ACEP successfully secured enactment of this important legislation into law, providing critical resources to help address burnout and the mental health needs of emergency physicians and other health care providers – ensuring that those who do so much to care for the public do not have to suffer in silence.

ACEP also helped secure \$140 million in funding for the grants under this law, including:

- \$80 million for mental and behavioral health training for health care professionals and other health care providers and first responders;
- \$20 million for education and an awareness campaign to encourage healthy work conditions and use of mental health services by health care professionals; and,
- \$40 million for health care providers to promote mental and behavioral health.

Reducing Barriers to Opioid Use Disorder Treatment

For years, ACEP has advocated for repeal of the federal "X-waiver" requirement, a significant and often duplicative barrier to the treatment of opioid use disorder (OUD), and a contributing factor to the continued stigma around the disease.

The fiscal year 2023 omnibus appropriations bill passed in December included repeal of the X-waiver, meaning that this unnecessary and burdensome requirement is no longer required to treat patients with buprenorphine for OUD. Going forward, all prescriptions for buprenorphine will only require a standard DEA registration number, and there are no longer any limits or patient caps on the number of patients a prescriber may treat for OUD with buprenorphine (existing state laws or regulations still apply).

Eric Ketcham, MD, FACEP with Rep. Paul Tonko (D-NY)
at White House Ceremony to Mark the End of the X-Waiver.

NEMPAC Champions Sen. Tim Kaine (D-VA), Rep. Susan Wild (D-PA) and Rep. Raja
Krishnamoorthi (D-IL) at Signing of Dr. Lorna Breen Health Care Provider Protection Act.

LEGISLATIVE ACCOMPLISHMENTS IN THE 117TH CONGRESS

Making the Alternatives to Opioids (ALTO) in the ED Program Permanent

The ACEP-developed and -led Alternatives to Opioids (ALTO) in the Emergency Department Act was originally included as part of the SUPPORT for Patients and Communities Act (P.L. 115-271) signed into law in 2018, a broad legislative package aimed at combating the nation's opioid epidemic. The ALTO program is an evidence-based, multidisciplinary acute pain management program that helps treat painful conditions for patients in the emergency department without using opioids and also helps other patients who may have an opioid use disorder (OUD). The SUPPORT Act established ALTO as a temporary demonstration program to support other EDs throughout the country in establishing their own ALTO programs.

Thanks to the proven success of this program, ACEP was able to lock in ALTO as a permanent program, authorizing it for an additional five years. Additionally, ACEP was able to secure \$8 million in federal funding – a \$2 million increase from previous levels.

Extending Telehealth Flexibilities

The rapid uptake of telemedicine during the COVID-19 pandemic has shown that telehealth is here to stay, helping expand the reach of emergency medicine beyond the four walls of the ED.

ACEP helped secure a number of critical extensions of telehealth flexibilities that were previously contingent on the federal public health emergency (PHE) declaration, such as the removal of restrictions on geographic requirements and expanding originating sites. These telehealth flexibilities have now been extended into 2024 as ACEP continues working to ensure that telehealth is cemented as a permanent fixture of the health care system.

Preparing for Future Pandemics and Public Health Emergencies

Throughout the COVID-19 pandemic, ACEP worked with Congress to share the experiences of emergency physicians and lessons learned during our nation's response to the public health crisis.

Over the past several years, Congress has considered these issues and worked to better prepare the country for future outbreaks or other public health emergencies. Among these, ACEP was able to substantively inform this work and secure a number of important provisions into law, including:

- Improving medical countermeasure research coordination;
- Increasing "warm-base" manufacturing capacity for medical countermeasures;
- Improving the supply chain and overall resiliency of the Strategic National Stockpile;
- Studying incentives for domestic production of generic medicines and APIs;
- Strengthening FDA enforcement authority against and increases penalties for selling counterfeit medical devices, including PPE, in the US;
- Provisions to help prevent medical device shortages.

Why "Give-a-Shift" to the Future of Emergency Medicine?

Join a committed group of your ACEP colleagues that donate one average shift annually to NEMPAC. Only ACEP members can support NEMPAC - our success depends on your participation.

\$1,200

for attending physicians.

\$365

for physicians in the first three years out of residency or retired physicians.

\$120

for residents, fellows and medical students.

Monthly and quarterly donation options are also available.

Give a Shift Benefits

- Admittance to the NEMPAC VIP Donor reception at the annual ACEP Leadership and Advocacy Conference in Washington, DC
- Admittance with one spouse/guest to the NEMPAC VIP Donor reception during ACEP's Scientific Assembly
- Three-day admission to the NEMPAC Give a Shift Donor Lounge during ACEP's Scientific Assembly
- Ribbon designating Give-a-Shift donor at ACEP annual meetings
- Invitations to in person and virtual fundraisers for candidates and Members of Congress
- NEMPAC Pulse newsletter
- Bi-monthly editions of *Inside Elections* with Nathan Gonzales (emailed)
- Invitations to the NEMPAC Distinguished Speaker Series virtual events with Congressional leaders and candidates
- Personal communications from the NEMPAC Board of Trustees
- Distinct listing in various ACEP publications including the NEMPAC Election Report and on the NEMPAC Website

"One of the best decisions I made during residency was to become involved with NEMPAC. It gave me the platform to have a voice far beyond the walls of my hospital."

- Christina Millhouse, MD, FACEP

"Politics affects everything we do, and NEMPAC is how we, as emergency physicians, can affect politics."

- Niki Thran, MD, FACEP

If you care about your patients and your practice, NEMPAC is the way to help.

I Give a Shift - do you?

- Bradley Uren, MD, FACEP

NEMPAC FUNDRAISING HIGHLIGHTS: 2022 ELECTION CYCLE TOTALS

Total Raised:
\$1,751,328

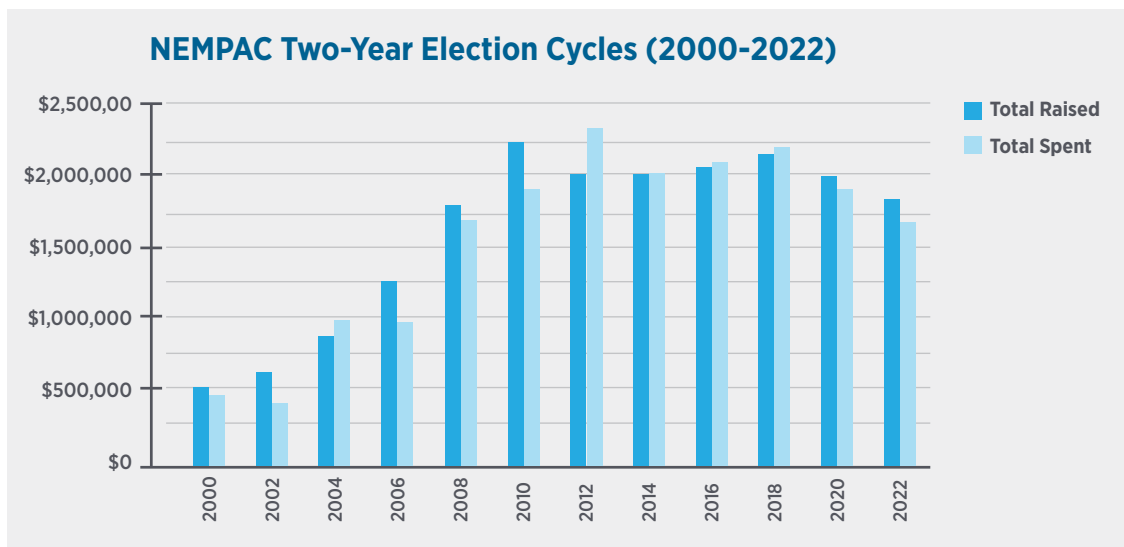

Average Donation:
\$409

**19% of ACEP
members donated**

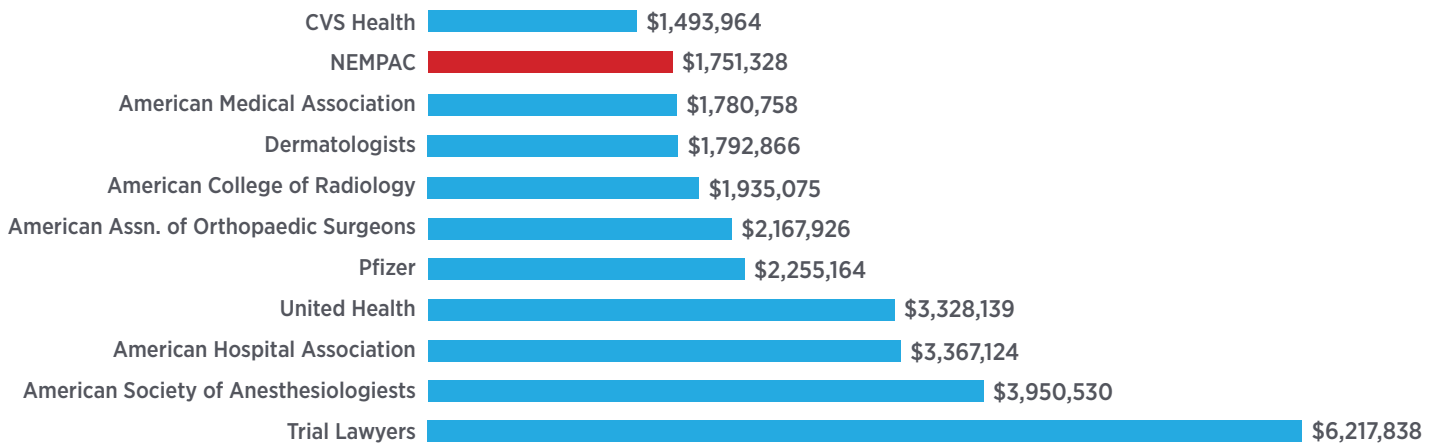

VIP Donors:
506

“There are countless interests competing for a voice in the legislative and political process. It’s critical that NEMPAC has the resources to stand up against groups whose goals may run counter to our mission of providing quality emergency care and access for all patients.”

- Gillian Schmitz, MD, FACEP

Emergency Medicine Group Support

The NEMPAC Board of Trustees would like to thank the following Emergency Medicine Group Practices for their efforts in supporting NEMPAC during the 2022 election cycle. This included encouraging ACEP members to donate to NEMPAC by payroll deduction, annual fundraising campaigns, general advocacy funds, and invoice mailing statements.

Jeanne Slade

Senior Director, Political Affairs and Grassroots Advocacy
jslade@acep.org

Liz Demorest

Manager, NEMPAC & Grassroots Advocacy
ldemorest@acep.org

Visit acep.org/nempac to learn more and donate.

NEMPAC

901 New York Ave NW, Suite 515E
Washington, DC 20001

Contributions or gifts to NEMPAC are voluntary and are not tax deductible for federal income tax purposes. The amount given or refusal to donate will not benefit or disadvantage you. By law, we may only use your contribution to support federal candidates if your contribution is made using a personal credit card or personal check. We are required to provide your employer name, your occupation, and to obtain an original signature of the ACEP member if contributing by credit card. NEMPAC encourages personal contributions. All non-personal contributions to NEMPAC will be used to defray costs of educational programs for NEMPAC and other activities permissible under federal law.
